■ Master in International and Comparative Children's Rights

Apply for our International and Comparative Children's Rights postgraduate specialist programme in the academic year 2023/2024 and get a competitive qualification at the University of Miskolc, Faculty of Law!

■ **Dealing with children and children's rights is a task that requires specialised knowledge and responsible thinking.**

The International and Comparative Children's Rights LL.M. Programme aims to provide a complex and interdisciplinary knowledge of children's rights and an approach that enables the participating lawyers to carry out their theoretical or practical work with a deep and real understanding of children's rights, regardless of their professional background. The training curriculum includes basics of social and personality development as well as child-friendly communication skills which may help to develop a truly child-sensitive, child rights-based approach. In addition, the programme provides a detailed and in-depth knowledge of the universal and regional international legal background on children's rights and presents the full regulatory background for children, both from the field of public and private law, through a Central European comparative law perspective.
